OVERVIEW ▾

The FC System was designed with one thing in mind: to bring together the most compelling details into one all-inclusive hydration system.

The FC System now includes a BTA Tilt Bracket, the BTA Tilt Bracket includes a tilt capable wing that is zip tied to the extensions.

Flipping over the wings changes the angle of the bracket from flat to a 10° angle, making it easy to level your drink system when the aerobars are tilted.

The durable silicone restraining strap provides hassle free bottle installation and removal.

- **Streamlined Storage:** New Profile Design FC Hydration Systems were designed with one thing in mind to create a clean front-end solution that thoughtfully integrates hydration, nutrition and electronic needs. Integrated storage streamlines nutrition needs into rear airfoil compartment
- **Forward Computer Mount:** Computer mount positions perfectly at the front of the system for optimal viewing.
- **No-Splash Refill Port:** Brand new patent-pending refill port shields splash back.
- **Dual Straw Positioning:** Strategically flexible to fit your preferences. A simple turn of the dial positions straw on the right or left side of the bottle.
- **Convertible Straw:** Swap straw with gap cap to place straw in the front or rear of bottle.
- **Tilt Increment:** Reversible brackets 0° or 10° option.
