ORANGE

There's nothing more refreshing than a juicy orange on a hot day, so creating an orange flavored Liquid Energy Gel was a clear choice. Take one sip and you'll taste a sweet and tangy burst of orange flavor that satisfies like a fresh-squeezed glass of OJ. But don't worry, this flavor is pulp-free!

LIQUID ENERGY GEL

★★★★★ 46 Reviews

Great Tasting Drinkable Energy

Introducing GU Liquid Energy Gels, delivering the same portable and fast-absorbing carbohydrates as our original Energy Gel in a refreshingly light and smooth liquid form. Each 100-calorie serving not only delivers a great-tasting blend of complex and simple carbohydrates, electrolytes, and branched-chain amino acids (BCAAs), it offers you an alternative form factor to fine-tune your nutrition plan and give you a powerful finish line kick just when you need it. All Liquid Energy Gels are Vegan and Gluten Free. [JUMP TO FULL DETAILS](#)

QUICK TIP: JUST LIKE YOU MIGHT TIRE FROM EATING THE SAME FLAVOR OVER TIME, YOUR TASTE BUDS ALSO CRAVE VARIETY IN TEXTURE AS WELL. WE DEVELOPED LIQUID ENERGY GEL TO PROVIDE ANOTHER OPTION TO KEEP YOU GOING, ESPECIALLY DURING YOUR FINISH LINE KICK.

GU LIQUID ENERGY GEL

Bonking Doesn't Solve Itself

GU Liquid Energy Gels deliver the same benefits as our Original Energy Gels with energy from a precise blend of complex and simple carbohydrates that will fuel you up, so you feel good, longer. Along with energy, Liquid Energy Gels also deliver key nutrients like electrolytes and amino acids to maintain proper hydration and keep you moving strong.

The GU You Can Gulp

Our Liquid Energy Gels are just that – liquid! Mixing up your nutrition plan with different form factors can actually impact your performance. That's because you're more likely to keep fueling, especially in later stages of a longer effort, when you have multiple form factors to choose from.

We Feed the Need to Move

We believe movement, in any form, can make us feel alive, healthy, and connected. When you're moving and working out, you need easy-to-digest calories from carbohydrates that deliver immediate and sustained energy while reducing the risk of stomach distress. When you're fueled-up, you feel better and perform better.

AMINO ACIDS

May reduce mental fatigue and help decrease muscle damage during exercise

CARBOHYDRATES

Delivers ready-to-use energy for athletes and can delay bonking by sparing glycogen stores

CAFFEINE

Helps enhance performance by increasing focus and concentration while training or racing
