

STAMP SPEED LACE - GREEN/ORANGE

★★★★★ 2 Reviews

The Stamp flat shoe does it all, whether on street or trail. The outsole is optimized for Crankbrothers Stamp pedal body, though it is designed to work flawlessly with any flat pedal. Its high-friction rubber compound provides optimal grip and its lug depth absorbs the pins to ensure a secure pedal connection.

30-DAY SIZE GUARANTEE
Free returns & exchanges at Crankbrothers.com to make finding the right size easy.

Product specification table with sections: CLOSURE SYSTEM, FIND YOUR SIZE, SPECS, RETURN POLICY.

MATCH COMPOUND

Our flat rubber compound (MC2) is optimized for grip and durability. It has high-friction to stick to the pedal body and low rebound properties to damp vibrations. The lugs are rounded to resist abrasion.

MATCH OUTSOLE

The tread pattern is designed for traction off the bike. Directionally angled and spaced toe and heel lugs offer traction for hiking up or down steep terrain. The ramped toe provides walkability on steep terrain.

MATCH SYSTEM

The tread pattern is designed for maximum contact surface and compatibility with the pedal platform. In addition, the lug depth is designed around pin dimensions to absorb the pin body.
