A durable CO2 dispenser constructed from CNC-machined aluminum, the Control Drive CO2 features control valve operation for easy, controlled inflation and a Twin Slip Chuck head which presses onto both Presta and Schrader valves. A neoprene sleeve insulates your hands from the cold during CO2 discharge. Available with a 16g cartridge, a 25g cartridge, or as only the inflator head.

Note: Blue color not available in the United States

### AWARDS

### REVIEWS/MEDIA

07.31.2017 - 6 of the best: CO2 inflators - Bikeradar

"With a minimalist CNC'ed aluminium head, the Control Drive feels high quality. Despite its small size, attention to detail is high too. A rubber seal engages with the cartridge threads as soon as you begin loading the inflator, which means little gas is lost before the valve is opened. The head slips easily over both Schrader and Presta valves, and the control knob is knurled for grip and simple to operate."

04.26.2017 - Sea Otter 2017: Lezyne - Singletrack

"One of the best CO2 valves we've used now comes in colours."

11.17.2014 - Road.cc Reviews the Lezyne Control Drive CO2 Inflator

"Lezyne's new Control Drive CO2 Inflator makes it really easy to get any Presta or Schrader inner tube fully inflated. It provides easy control of the flow of gas and has a jacket to protect your hands from freezing to the canister during use."
